## WASH-IT

pH:9  
Alkali

Hand Dishwashing Detergent

CC6

Wash-It is our concentrated hand dishwashing detergent, washing up liquid, with additives for effective grease and grime removal, formulated for hand dishwashing and general cleaning.

pH balanced for mildness in use, and safe cleaning of all surfaces, dish, curlery and crockery.

Advanced liquid formula consisting of detergent and grease dissolving surfactants.

Wash-It is designed to be used as a general hand dishwashing detergent, and for multi-purpose surface cleaning where an affective, mild detergent is required.

Designed for professional use.
